

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

Long Term Operating Support (LTOS) Program Update

The Illinois Housing Development Authority intends to close the Request for Applications (RFA) for the Long Term Operating Support (LTOS) program effective **August 1, 2018**.

The LTOS program provides rental subsidies to eligible property owners serving households referred through the Statewide Referral Network. The subsidy bridges the gap between the contract rent and what extremely low-income households can afford to pay. Over the past 21 months, IHDA has allocated over \$14 million to help create over 100 new LTOS units.

We appreciate those who submitted applications to help provide necessary housing for the most vulnerable populations. As always, IHDA will keep the development community informed should any new programs or funding opportunities become available.
